CROCOSAURUS COVE

In the heart of Darwin City

From little things, big things grow

Excursion Overview

9am start

Meet at the ticket desk on Mitchell Street.
Welcome to Crocosaurus Cove by your education guide.

9.10am

Introduction to the days activities.

This includes:

- A self guided tour of the Learning Trail
- A life cycle workshop with your Crocosaurus Cove education guide
- A short video and a some hands on fun with reptiles and other interesting reptile artefacts.

9.15am – 10.00am

Self Guided Tour

Explore Crocosaurus Cove and learn more about the life cycle of a crocodile. Use your observations to complete the *life cycle learning Worksheet*.

- What did you find?
- What did you notice about these animals?
- How are they similar and different to us?
- What behaviours did you observe?
- Why were they behaving in such a way?

10.00am – 10.45am

The group will be split into two groups for the next part of the learning experience.

Group 1.

Habitat & Nutrition

Be guided by your Crocosaurus Cove education guide and learn about an interactive environment.

1. How climate can affect a crocodile's growth?
2. Hear about the food crocodiles eat
3. Why does a crocodiles diet change?

Group 2.

Life Cycle & physical characteristics

Meet Fluffy the crocodile and touch and feel a range of artefacts including:

- Crocodile eggs
 - Crocodile skin
 - Adult and baby crocodile teeth
4. Learn about the crocodiles physical and emotional characteristics.
 5. How crocodiles change at different intervals of their life.

10.45am - 11.00am

Watch a video on the Saltwater crocodile

11.00am - 11.20am

Discuss wonderings and question time

11.20am - 11.25am

Croc Wise Message

11.30am

Enjoy the Big Croc Feed show and bite force demonstration and learn more about these amazing reptiles.
